WE'RE HIRING: PUBLIC HEALTH NURSES

Mercer County Health Department | Aledo, Illinois

Nursing Beyond the Bedside

FULL-TIME

36 hours/week

PART-TIME

Approximately 18 hours/week

Looking for a nursing job with more balance, more variety, and the chance to make a difference close to home? Mercer County Health Department is seeking one full-time and one part-time Public Health Nurse to join our team.

Public health nursing offers a change of pace from traditional bedside care. Our nurses work with individuals, families, schools, healthcare providers, and community partners to provide direct services, education, referrals, prevention, and support throughout Mercer County.

WHY YOU MAY LOVE PUBLIC HEALTH NURSING

- A 36-hour full-time workweek - full-time benefits with a shorter workweek
- Paid time off for both full-time and part-time employees
- Health, dental, and vision insurance for full-time employees
- Paid holidays for full-time employees
- Variety in your work - clinic, community, education, prevention, and collaboration
- The opportunity to build relationships and make a meaningful difference in your own community
- A supportive, team-oriented public health environment

WHO WE'RE LOOKING FOR

LPN, RN, BSN, and APRN candidates are encouraged to apply. We welcome a variety of nursing backgrounds and experience levels. We are especially interested in candidates who enjoy working with people, value prevention and education, and want to be part of a team serving the community.

Starting wage: \$22/hour

Compensation above the starting rate may be considered based on licensure, education, experience, and qualifications.

HOW TO APPLY

Complete the Application for Employment and submit it along with your resume. **Applications and resumes will be accepted through September 7, 2026.**

Come do nursing differently - and help improve the health of Mercer County.

JEWELL GROUP
PRIDE IN PRECISION™

CNC Operator/Machinist

Jewell Group is currently seeking 1st (5:30am-4:00pm) and 2nd (4:00pm-2:30am) shift CNC operators in the production of industrial parts for an assortment of industries. The standard operating schedule is 10-hour days, Monday through Friday (this schedule is subject to change at times based on fluctuating customer deadlines and production needs).

Required Skills and Abilities:

- While day to day operations remain similar, the parts and machines may vary, so the ability to adapt and learn is extremely important.
- Proficient and accurate use of precision-measuring equipment (caliper, groove caliper, pin caliper, micrometer, blade micrometer, bore gage, go-no-go gage, groove gage, height gage, port gage, profilometer, optical comparator).
- Ability to lift and/or move up to 60 pounds.
- Excellent hand eye coordination and fine motor skills.
- Ability to read numbers into the thousandths (0.123).
- Time management skills and ability to meet deadlines.
- Ability to read and follow simple directions for quality and/or rate.
- Skilled in technology applications.
- 1+ year machining experience (preferred)

Responsibilities and Duties:

- Operating a CNC lathe or mill in the production and inspection of metal parts.
- Following customer and company "in-process inspections".
- Review blueprints, drawings, or instructions to understand specifications of output.
- Load machine with raw material to begin operations.
- Properly measure final product using quality assurance devices.
- Check output for acceptable +/- tolerance to ensure consistency with specifications and discard defects.
- Keep records of approved and defective units or final products.
- Complete set-ups, off-sets, adjustments, tool changes (troubleshooting issues).
- Deburring, cleaning, and packaging finished products.
- Minimizing scrap parts/materials.
- Meeting production goals/quotas.
- Cleaning the machine and surrounding area.
- Follow safety procedures and regulations.
- Other duties as assigned.

We are excited to offer the opportunity to join a family run business since 1977. Jewell Group is proud to offer competitive pay as well as outstanding benefits (medical, dental, vision, 401(k), paid holidays, paid time off, life insurance, and short term/long term disability, among many more) in a clean, spacious, and climate-controlled work environment. If interested, please send your resume to careers@jewellgroup.com.

Equal Opportunity Employment - Qualified candidates will receive consideration for employment without regard to their race, color, religion, national origin, sex, protected veteran status or disability

Hansaloy Corporation

820 West 35th Street
Davenport IA 52806

Job Description

Position Title: E Machine Operator (Non-exempt)

Department Plant Operations

Reports to: Production Supervisor

Date: August 14, 2012 (KDB)

Primary Duties:

Primary duties are to operate the E Bevel Grind equipment. The operator must be knowledgeable & proficient with operation of the E grinding equipment for the processing of both band blades and coil product. Machine set-up and adjustments for the symmetrical grinding of the secondary bevel in relation to the scallop grind are critical. Adjustments may be necessary due to normal machine grinding wheel wear, and varying incoming scallop geometry with the in-process product.

Primary Responsibilities:

1. Follow the finishing department schedule to locate, move & stage bundles of blades typically weighing 30 to 45 pounds. Handling 14 to 20 bundles of blades over the course of an 8 to 10 hour shift is normal. Handling coils weighing 50 to 70 pounds each from a cart to a waist high table & return, possibly 2 to 3 coils one shift weekly, is common.
2. Set-up the grinding wheels to achieve the proper bevel placement, side-to-side symmetry, and finish per specifications.
3. Load & unload individual bands in the equipment in cycles of 30 to 90 seconds. Operator typically is working 2 machines simultaneously.
4. Inspect individual blades after processing.
5. Complete written & computerized record keeping with regard to in-process work orders and production schedules.

Job Requirements:

Mechanical aptitude and dexterity to operate wet grinding equipment while handling blades up thru 250 inches in circumference. The ability to adjust grinding equipment to set & maintain edge finish requirements as specified. Ability to understand, follow, and complete paperwork, including limited interface with data entry terminals, regarding work schedules, work order information, and sales order information. The ability to lift 50 to 70 pounds overhead to move bundles of blades or coils waist high is necessary. This is a wet grind operation with the operator exposed to a commercial grinding coolant. Typically the grinding coolant is a water soluble product that is sprayed under pressure at the interface of the grinding wheel and the product. A residual amount of the coolant remains on the product as a rust inhibitor.
